The Datecs FP-R500 is a multifunctional scanner designed for scanning and verifying the security features of banknotes and travel documents, tax stamps and security documents. The scanner is equipped with four independent photo receivers which allows you to scan an entire stack of documents or banknotes in a second. The Datecs FP-R500 has a bright LED display which allows you to work in a bright room. The Datecs FP-R500 has an automatic paper type selection function. The scanner is equipped with an anti-deflection system and an anti-deflection function that completely prevents the possibility of deflection of the beam during scanning. The Datecs FP-R500 has an auto centering function for scanning that allows you to use the scanner anywhere because it does not require special guides. The model has high productivity, fast document loading and high security. The scanner provides high image

clarity through the use of the latest Datamax[®] scanning technology and a new color gamut.
Specifications Scanning resolution 256dpi Scanning element type Laser Scanning/reading
distance Up to 6 ft. (2,4 D¼.) Scanning Speed Up to 24 lines
