Economy War is a free strategy game. In this game you have a small company which you need to build and expand. You need to build 3 cities and 23 factories. Buildings have specific effects on the economy. Over time you'll earn money. With this money you'll be able to: buy more factories, workers, buildings, build new cities, build strong cities and leaders, send ships out to trade, build several different types of weapons, upgrade weapons and buildings, send more ships to trade, trade with other countries and upgrade your ships, increase the overall strength of your army, increase your army strength and attack other countries, improve your diplomacy and research, create weapons from different resources, explore new land to find resources, learn how to improve your mines, do research to protect your colonists, get drones to protect your colonies, make a building where you can do research, and explore new land to find new resources. Guide your economy to prosperity! Overlay items are buildable, they have effects which can be updated later. To do research you need money. Over time your colonies will grow stronger. Overlay items are buildable, they have effects which can be updated later. To do research you need money. The cities have specific effects: provide your cities with resources, how they're built, influence in their city, makes them more important in your empire and how they stand in relation to your other colonies. Modify laws, control the economy, build facilities, produce and trade resources, make diplomatic relations with other countries, build military bases, . With the end of WWI and the subsequent Jingoistic fervour in both the UK and the USA, it seemed unlikely that a peace conference would go the way of the League of Nations. Overlay items are buildable, they have effects which can be updated later. Overlay items are buildable, they have effects which can be updated later. IaaS 1. Playable with on-screen keyboard, mouse and gamepad. Play this exciting action strategy game! Fight for position and power in the new cyber war game. Command drones, protect your colonies, upgrade your factories, upgrade your weapons, forge alliances, level up buildings, research technologies, access an array of weapons, outmanoeuvre the enemy and cause havoc!
