ImgBurn Disk Copy 5.3.12 ImgBurn Disk Copy is a software able to clone disks and burn them, and images to disk (it can be a CD or DVD). With ImgBurn Disk Copy you can easily: - Copy an image to CD, DVD or ISO file - Burn one or more CD or DVD - Clone a hard disk or a partition The image burning part consists of two steps. First, you choose the image (the drive letter is chosen automatically) and the size. Second, you choose the target disk, the recording speed and the disc size. You can also convert your image to a multi-session disk with ImgBurn Disk Copy. Each session can be a copy of the same image. Impactor 6.0.3 Impactor is a useful, easy to use Windows program, that can unclog your registry and clean your web browser of unwanted, unnecessary, and troublesome files and programs. It will even remove their entries automatically, so you do not have to go through all the browser's options to remove these entries. It can also be used to repair broken programs or damaged registry keys. If the problem is system-wide, then a system scan can be performed to find out exactly what is wrong. Impactor has a built-in knowledge base which contains registry and file system items. It is very easy to use, and since it does not require third party tools, it will not slow down your computer.
