The Elden Ring is a fantasy role-playing game (RPG) that takes place in the Lands Between. In the world of Elden Ring, mana and grace are the heart and soul of the world, with the colorful and vibrant land of Elden surrounding them. The mana is a universal energy, which can be used to make use of all sorts of objects, people and places. The mana is also able to be used to build up mana as one progresses. For players, the thrill of exploring unknown lands, acquiring valuable treasures, meeting new friends, and gaining fame and respect await.

**HISTORY OF ELDEN RING GAME:** In a world where mana and grace are the heart and soul of all things, Elden Ring was created. • For this purpose, Mana and Grace were made as the main aspects, and thus developed the concept of Role Playing Games (RPG). • In that time, those who knew of it, were already nostalgic about the original Final Fantasy (FF). In the beginning there was Tarnished, a man who was

---

known as the “Death Merchant” for his vast magic powers. He led an army of the undead and fought against all that opposed him. And even though he was a force to be reckoned with, he was defeated by a grace-infused hero, and then sealed in a cursed treasure and laid to rest in the Land Between. The god of existence and eternity drew much mana from the Lands Between, and instead, extracted grace from a fruit tree that grew on the seashore and created Tarnished, who became the first and greatest of the Elden Lords. Tarnished was sealed and cursed and is now able to leave the Land Between only on rare occasions. For the sake of the welfare of the land and for the sake of Mana and Grace, Mana and Grace became the main aspects, and the concept of the RPG genre was created. A hero with tremendous magic power is selected to liberate the entire lands. In the early days, the hero was an average country man, but later the heroine and the other characters were born.

## **Worlds Evangelion Online**

**BEHOLD! The abyss where innocence was lost, and where the garden of Eden suffered irreparable destruction. A city that is an embodiment of the self-destruction of mankind, rebuilt and renewed from the ashes of its former self - ATALA, the last bastion of evil. At the clutches of the rebel organizations known as "Akebono H'ana", the days of the city of Elderians on the brink of destruction become worse with every passing day. At the same time, the latest information gathering technology used by the rebels, "Abandoned City System", also known as "ASPS", has been launched. A calm, silent city**

**where nothing happens... will this be the fate of the city where Eyres is located?**

**Today, it has been announced that "AdventureQuest Worlds Evangelion Online" will be released for the world for PC (Steam). With the announcement, the developer also released a new trailer that was made specifically for the game.**

**ASPS is a system that most probably plays a role in "AQW EvE". It is a kind of system that is able to detect the presence of major numbers of "Akebono H'ana" and other opposing forces regardless of location. With this system, Akebono H'ana can attempt to attack an area without any guarantees that they can achieve their goal. However, it is unknown what the roles of ASPS and the remnant of "AQSEVEN" in "AQW EvE" are, as it was no longer used in AQ9. It is also unknown how "ASPS" will exert its influence on the various elements, such as recruiting adventurers, fleets, and Paladins**
