However, becoming a vegan completely changed my life. I lost my job, threw away all my old clothes and toys, and started a new lifestyle. However, not everyone is prepared to change their whole lifestyle. Most vegans, myself included, came from a world of animal product. I honestly feel like vegans are the only people who have the guts to be vegan. A lot of non-vegans believe that veganism is a cult, thinking that all the vegans are crazy. Do you know what the biggest misconception about vegans is? It's that we give up meat and dairy. We eat the same things as non-vegans; it is more about how we prepare our food. I eat grass-fed meat, dairy, and eggs. I use the non-vegan method of cooking (i.e. frying, boiling, baking, grilling, and steaming). It is more about

preparation than the actual food. We don't cut out red meat, we just do it in a different way. Just remember that you have options!

You don't have to become a vegan if you don't want to. Most people don't have to, I don't, and I am happy with the results. However, don't let someone else's social media posts push you into a lifestyle that you're not ready for. How to be Vegan I am writing this article to encourage people to make the switch to a vegan lifestyle. We can do it and we can do it together. It is a lifestyle that will help us live longer, healthier, and happier. Let's make it our lifestyle.

2. Social Media Presence You need to let your friends and family know. If you know someone who is vegan, tell them. If you don't know anyone vegan, search a local vegans group on Facebook or Instagram.
